

Bird Seed Ornaments

(Crafting with the Girls – Ep. 1)

Ingredients:

½ cup of Water

3 tsp of Unflavored Gelatin

3 Tbsp of Corn Syrup

¾ cup of Flour

4 cups of Bird Seed (Any type will do)

Straws

String or Ribbon

Directions:

In a small sauce pan, heat water, gelatin and corn syrup together over low heat until well combined. Do not boil.

In a large bowl, mix flour and seeds together, then slowly add the gelatin mixture.

While cooling, put out parchment paper on a cookie sheet, and choose your favorite cookie cutters. Spray those cookie cutters with cooking spray. Next, fill the cutters with the bird seed mixture, pressing in the mixture tightly. Place a straw in the ornament to poke a hole through for hanging.

After drying overnight, remove ornaments from the cookie cutters. You can then attach ribbon or string and hang for the birds!
