

# Watermelon Cucumber Cooler

(Cooking with the Girls – Ep. 4)

## ***Ingredients:***

5 cups of cubed seedless watermelon (about 1 ½ pounds)

1 large English cucumber, peeled and cut into chunks

¼ cup of lime juice (about 2 limes)

2 Tbsp of honey

⅔ cup of club soda

Ice

Cucumber slices, for garnish

## ***Directions:***

Set a large fine-mesh sieve over a large bowl. In a blender, puree watermelon. Pour watermelon puree through sieve, pressing on solids with a rubber spatula. Puree English cucumber, in blender, and pour through sieve into watermelon juice.

In a small bowl, stir together lime juice and honey. Add honey mixture to watermelon and cucumber juices, along with club soda. Add more honey for sweetness, if desired. To serve, fill four glasses with ice and garnish with cucumber slices.
